***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 28 March 2005 has been entered.

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The following changes were made in the claims:

In claim 1, line 7, --directly-- was inserted following "voltage" and  
line 16, --directly-- was inserted following "voltage".

Authorization for this examiner's amendment was given in a telephone interview with William Kidd on May 4, 2005.

**STATEMENT OF REASONS FOR ALLOWANCE**

Examiner has considered Applicant's remarks for the outstanding rejection. It is clear that Applicant wishes to recite a direct connection between the "first default circuit" and "second default circuit", the "first node" and "second node" and the NAND gate. However, the amendment filed 28 March 2005 still allowed for an intervening element between the default circuits and the nodes. With the above amendment, it is now clearly recited that the default circuits directly apply the "default supply voltage" to the nodes and that the nodes are directly

connected to NAND gate. Since the reference to Bechade includes inverters 24, it is now seen that such no longer meets the claim language. Therefore, the claims are now in condition for allowance.
